DECORATED RONDA MOVEMENTS

WHERE PRECISION
MEETS ELEGANCE

RONDA 5030.D **Gold**

RONDA 5030.D **Rhodium**

RONDA 5030.D **Anthracite**

RONDA, one of the world's leading manufacturers of high-precision mechanical and electronic watch movements, is expanding its portfolio and setting new standards at the very heart of modern timepieces. With the introduction of decorated Swiss Made movements, RONDA now brings together technical precision and refined aesthetics.

For decades, RONDA movements have stood for the ultimate in precision, reliability and Swiss Made quality. Now, with these new decorative options, RONDA turns the spotlight on the inside of watches – for brands that want to give their timepieces a distinctive character.

Three elegant decoration styles for maximum creative freedom: Geneva Stripes, Sunray and a fully customizable Tapisserie – for a strong brand presence and unique design.

These decorations can be combined with three stylish colour options – gold, rhodium and anthracite – opening up a wide range of possibilities for an exclusive design.

Decorations are available for selected RONDA calibers.
