You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda Brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

</tbody>
</table>

Setting the time

1. Pull the crown to position III (the watch stops).
2. Turn the crown until you reach the correct time 8:30.
3. Push the crown back into position I.

Please note:
* In order to set the time to the exact second, the second hand must be pulled out when the second hand is in position IIA.

Setting the date (quick mode)

1. Pull the crown to position III (the watch continues to run).
2. Turn the crown anticlockwise until the correct date appears.
3. Push the crown back into position I.

Please note:
* During the date changing phase between approx. 08:30 PM and 12 PM, the date must be set to the date of the following day.

Adjusting the chronograph hands to zero position

Example:
One or several chronograph hands are not in their correct zero positions and have to be adjusted (e.g. following a battery change).

1. Pull the crown to position III (the chronograph hands are in their correct or incorrect zero position).
2. Keep push-buttons A and B depressed simultaneously for at least 2 seconds (the second counter hand rotates by 360° – corrective mode is activated.).

Example: Single step 1 sec short Continuous 1 sec long

Adjusting the chronograph: Basic function

Example:
1. Start: Press push-button A.
2. Step: To stop the timing, press push-button A once more and read the chronograph counters: 4h / 20 min / 38 sec.
3. Zero positioning: Press push-button B.

Chronograph: Accumulated timing

Example:
1. Start: (start timing)
2. Stop: e.g. 15 min 5 sec following 1.
3. Restart: (timing is resumed)
4. Stop: (the chronograph counters are cleared and time is broken)
5. Restart: (the chronograph hands are returned to their zero positions).

Please note:
* Following B, the accumulation of the timing can be continued by pressing push-button B.

Example: 9 min 12 sec following 1

Chronograph: Intermediate or interval timing

Example:
1. Start: (start timing)
2. Display interval: e.g. 20 minutes 17 seconds (timing continues in the background)
3. Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)
4. Stop: (final time is displayed)
5. Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)

Please note:
* Following B, further intervals or intermediate can be displayed by pressing push-button B (display interval / make up measured time).

Example: 5 sec following 1

Example: 20 minutes 17 seconds (timing continues in the background)

Example: Making up the measured time: (the chronograph hands are quickly advanced to the ongoing measured time.)

Example: Stop: (final time is displayed)

Example: Reset: (the chronograph hands are returned to their zero position)
