Setting the alarm time

1. **Activate the setting mode**
   - Press the push-button for at least 2 seconds. As soon as the small minute hand jumps forward one minute, the mode is active.

2. **Setting**
   - **Short pressing (less than 1 second):** the alarm time is moved forward by the minute.
   - **Long pressing (longer than 2 seconds):** the alarm time is moved forward until the push-button is released.

**Please note:**
- If the push-button is not activated for 10 seconds, the setting mode of the alarm time deactivates itself. At the same time, 2 beeps are emitted to indicate that the alarm is switched off.

Switching the alarm on/off

1. **The alarm is switched on/off by briefly pressing the push-button:**
   - 2 beeps → alarm switched on
   - 1 beep → alarm switched off

**Please note:**
- The alarm can be set maximum 12 hours before the desired alarm time.

Once the set alarm time has been reached, a signal is emitted for 30 seconds. This signal is repeated after two minutes. Following brief pressing of the push-button, the signal is immediately switched off.

### Description of the display and control buttons

#### Display elements
- **Minute hand**
- **Hour hand**
- **Alarm and reference time (hour and minute)**
- **Second hand**
- **Date**

#### Control buttons
- **Crown**
- **Push-button**

### Setting the time

1. **Pull out the crown to position III (the watch stops).**
2. **Turn the crown until you reach the correct time 8:45.**
3. **Push the crown back into position I.**

**Please note:**
- In order to set the time to the exact second, the crown must be pulled out when the second hand is in position 00.
- Once the hour and minute hand have been set, the crown must be pushed back into position I at the exact second.

### Setting the time (quick mode)

1. **Pull out the crown to position III (the watch stops).**
2. **Turn the crown until the correct date 04 appears.**
3. **Push the crown back into position I.**

**Please note:**
- The date of the following day must be set in the calendar changing phase between approx. 8 PM and midnight.

### Setting the reference time

1. **Pull out the crown to position III (second hand stops).**
2. **Activating the setting mode**
   - Press the push-button for at least 2 seconds. As soon as the small minute hand jumps forwards one minute, the mode is active.
3. **Short pressing (less than 1 second):** the reference time is moved forwards by the minute.
4. **Medium pressing (1-2 seconds):** the reference time is moved forwards by the hour.
5. **Long pressing (longer than 2 seconds):** the reference time is moved forwards until the push-button is released.
6. **Push the crown back into position I (the display changes from reference time to alarm time).**
7. **A 1 beep signal indicates that the alarm is switched on.**

**Please note:**
- The reference time must display the same time as the current time. This means that resetting the current time also requires the identical correction of the reference time.
- Afterwards, the alarm time has to be reset.

### What is the reference time?

The current time is displayed by means of the hour and minute hand. Parallel to the current time, the reference time runs in the background. The alarm time refers itself to this reference time. Thus, resetting the time also requires the identical correction of the reference time.

*If the reference time is not synchronised with the current time, this results in the alarm signal being emitted at a different time to the set alarm time.*
