You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda Brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

### Description of the display and control buttons

- **Display elements**
  - Date
  - Second hand
  - Minute hand
  - Hour hand
  - Second counter
  - Minute counter

- **Control buttons**
  - Push button A
  - Crown
  - Push button B

#### Setting the time

1. **Pull out the crown to position III (the watch stops).**
2. Turn the crown until you reach the correct time 8:45.
3. **Push the crown back into position I.**

**Please note:**
- To set the time to the exact second, please pull out the crown to position II when the second hand is in position »60«. Only the hour and minute hands have been set, must be pushed back into position I at the exact second.

### Chronograph: Basic function

- **Start:** Press push-button A.
- **Stop:** to stop the timing, press push-button A once more and read the chronograph hands 4 min/38 sec / 7 sec.
- **Zero positioning:** Press push-button A. (The chronograph hands will be reset to their zero positions.)

### Chronograph: Accumulated timing

- **Start:** (at any time)
- **Stop:** (at final time is reached)
- **Reset:** (Timing is resumed)

**Example:**
- **Short:** Press push-button A (display interval / make up missed time)
- **Intermediate or interval timing:**
  - Press push-button B (interval timing, display interval is zeroed)

**Please note:**
- Followed by, the accumulation of the timing can be continued by pressing push-button A (reset/stop/next step).

### Chronograph: Intermediate or interval timing

- **Start:** (at any time)
- **Display interval:** 20 minute 27 second timing continues in the background
- **Making up the measured time:** The chronograph hands are quickly advanced to the ongoing measured time.
- **Stop:** (Final time is displayed)
- **Reset:** (The chronograph hands are returned to their zero positions)

**Please note:**
- Followed by, further intervals or intermediate timing can be displayed by pressing push-button B (display interval / make up missed time).

### Adjusting the chronograph hand to zero position

- **Example:**
  - One or several chronograph hands are not in their correct zero positions and have to be adjusted (e.g. following a battery change).
  - **Pull out the crown to position III (all chronograph hands are in their correct or incorrect zero positions).**
  - Keep push-buttons A and B depressed simultaneously for at least 2 seconds (the second counter hand 300° → corrective mode is activated).

### Setting the date/time following a battery change

- **Example:**
  - **Date time on the watch:** 1:25 AM
  - **Present date / time:** 8:30 PM

1. **Pull out the crown to position III (the watch continues to run).**
2. Turn the crown until you reach the correct date and time.
3. **Push the crown back into position I.**

**Please note:**
- During the date changing phase between approx. 3 PM and midnight; the date must be set to the date of the following day.
- An extreme accidental position in setting the date with quick mode can induce a false date indication. The synchronization is re-established by setting the date from 01 till 31 (crown in position II).

### Setting the date (quick mode)

1. **Pull out the crown to position III (the watch continues to run).**
2. Turn the crown until the correct date appears.
3. **Push the crown back into position I.**

**Please note:**
- The chronograph hands are returned to their zero positions.

### Adjusting the chronograph hand to zero position

1. **Pull out the crown to position III (the watch continues to run).**
2. Turn the crown until the correct date appears.
3. **Continuous:** To turn the crown until the correct time 8:30 PM appears.
4. Push the crown back into position I.

**Please note:**
- To set your watch to the exact second, please refer to the chapter entitled winding the watch.
- Please observe the AMPM clock rhythm.

### Adjusting the second hand

**Example:**
- **Single step:** A 1 x short
- **Continuous:** A 1 x long

### Adjusting the next hand

**Example:**
- **Single step:** B 1 x short
- **Continuous:** B 1 x long

### Adjusting the minute counter hand (position 9h)

**Example:**
- **Single step:** 1 x short
- **Continuous:** C 1 x long

### Return the crown to position II

Termination of the chronograph hands adjustment (can be carried out at any time).
