**RONDAstartech – Movement Cal. 5040.B**

User’s Manual English

**You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda Brand. In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.**

---

**Description of the display and control buttons**

**Display elements**
- Date
- Second hand
- Minute hand
- Hour hand
- Second counter

**Control buttons**
- Crown
- Push button A
- Push button B

---

**Setting the time**

1. Pull out the crown to position III (the watch stops).
2. Turn the crown until you reach the correct time 8:45.
3. Push the crown back into position I.

**Please note:**
- To set the time to the exact second, the minute hand must be pulled out when the second hand is in position V and the hour and minute hands have been set. Must be pushed back into position 1 at the exact second.

---

**Setting the date (quick mode)**

1. Pull out the crown to position II (the watch continues to run).
2. Turn the crown until the correct date appears.
3. Push the crown back into position I.

**Please note:**
- During the date changing phase between approx. 9 PM and 12 PM the date must be set to the date of the following day.

---

**Setting the date/time following a battery change**

**Example:**
- Date: time on the watch: 1:45 PM
- Present date/time: 5:30 PM

1. Pull out the crown to position B (the watch continues to run).
2. Turn the crown until yesterday’s date appears.
3. Continue to turn the crown until the correct time 03:30 PM appears.
4. Push the crown back into position I.

**Please note:**
- To set your watch to the exact second, please refer to the chapter entitled setting the time.
- Please observe the AM/PM clock rhythm.

---

**Chronograph: Basic function**

- Start: Press push-button A.
- Stop to stop the timing, press push-button B, then press push-button A again.

**Zero positioning:**

1. Press push button B. (The chronograph hands will reset to their zero positions.)

---

**Chronograph: Accumulated timing**

**Example:**
- Start: (start timing)
- Restart: (timing is resumed)
- Stop: (final time is displayed)

**Note:**
- The accumulation of the time can be continued by pressing push-button A.

**Please note:**
- Following (1) and (2), intermediate or interval timing can be displayed by pressing push-button A (display interval/make up measured time...).

---

**Chronograph: Intermediate or interval timing**

**Example:**
- Start: (start timing)
- Make up interval: e.g., 20 minutes 17 seconds (interval continues in the background)
- Making up the measured time: The chronograph hands are advanced to the ongoing measured time.
- Stop: (final time is displayed)

**Reset:**
- The chronograph hands are returned to their zero position.

**Please note:**
- Following (1) and (2), intermediate or interval timing can be displayed by pressing push-button A (display interval/make up measured time...).

---

**Adjusting the chronograph hands to zero position**

**Example:**
- One or both chronograph hands are not in their correct zero position and have to be adjusted (e.g., following a battery change).

1. Pull out the crown to position III (all chronograph hands are in their correct or incorrect zero position).
2. Keep push-buttons A and B depressed simultaneously for at least 2 seconds (the chronograph hand 60° is correcting mode is activated).

---

**Adjusting the second counter hand**
