You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand. In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

**Chronograph: Basic function**

**Example:**
1. **Start:** Press push-button A.
2. **Stop:** Stop the timing, press push-button A once more and read the chronograph counters 4 min 20 sec / (or sec)
3. **Zero positioning:** Press push-button B. (The chronograph hands will be reset to their zero position.)

**Chronograph: Accumulated timing**

**Example:**
1. **Start:** [start time] (e.g., 15 min 5 sec following B)
2. **Restart:** [telling is resumed] (e.g., 5 min 12 sec following B)
3. **Stop:** [final time is displayed]
4. **Reset:** The chronograph hands are returned to their zero position.

**Please note:** Following B, the accumulation of the time can be continued by pressing push-button A. (Reset / Stop / Restart / Stop: ...)

**Chronograph: Intermediate or interval timing**

**Example:**
1. **Start:** [start timing]
2. **Stop:** [time interval]: e.g., 20 minutes 17 seconds (timing continues in the background)
3. **Making up the measured time:** [the chronograph hands are quickly advanced to the ongoing measured time.]
4. **Stop:** [final time is displayed]
5. **Reset:** The chronograph hands are returned to their zero position.

**Please note:** Following B, further intervals or intermediate times can be displayed by pressing push-button B. (display interval / make up measured time: ...;)

**Adjusting the chronograph hands to zero position**

**Example:**
1. One or several chronograph hands are not in their correct zero positions and have to be adjusted (e.g., following a battery change).
2. **Pull out the crown to position III:** (the chronograph hands are in their correct or incorrect zero positions).
3. **Keep push-buttons A and B depressed simultaneously for at least 3 seconds:** (the second hand rotates by 360° — corrective mode is activated).

**Adjusting the second counter hand**

**Single step:** 1 x short
   - Continuous: long

**Adjusting the next hand**

**Single step:** 1 x short
   - Continuous: long

**Adjusting the minute counter hand (position 9h)**

**Single step:** 1 x short
   - Continuous: long

**Returning the cream to position I**

Termination of the chronograph hands adjustment (can be carried out at any time).

**Setting the time**

1. **Pull out the crown to position II:** (the watch stops).
2. **Turn the crown until you reach the correct time:** (B/C).
3. **Push the crown back into position I.**

**Please note:** In order to set the time to the exact second, **A** must be pulled out when the second hand is in position **B**. The hour and minute hands have been set. **B** must be pushed back into position **I** at the exact second.

**Setting the date (quick mode)**

1. **Pull out the crown to position II:** (the watch continues to run).
2. **Turn the crown until the correct date** appears.
3. **Push the crown back into position I.**

**Please note:** The date can be changed during the date changing phase between approx. 9:00 PM and 12:00 PM; please note that the date must not occur at midnight.

**Setting the date, weekday and time**

**Example:**
1. **Date / time on the watch:** 20:35 / 20.07.17
2. **Pull out the crown to position II:** (the watch stops).
3. **Turn the crown until you reach the correct time:** (B/C).
4. **Display the correct time:** 8:35 PM appears.
5. **Pull out the crown to position II:** (the watch stops).
6. **Turn the crown until yesterday’s date** appears.
7. **Turn the crown until yesterday’s weekday** appears.
8. **Push the crown back into position I.**

**Please note:** * To set your watch to the exact second, please refer to the chapter entitled setting the time. 
* Please observe the AM/PM clock rhythm.
