You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda Brand.

In case of repairs, guarantees and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

**Description of the display and control buttons**

- **Display elements**
  - Second hand
  - Minute hand
  - Hour hand
  - Minute counter
  - Hour counter
  - Second counter

- **Control buttons**
  - Crown
  - Push-button A
  - Push-button B

**Setting the time**

1. Pull out the crown to position III (the watch stops).
2. Turn the crown until you reach the correct time (in 15 second steps).
3. Push the crown back into position I.

*Please note:*
- In order to set the time to the exact second, the second hand must be pulled out when the second hand is in position IV/VI. Once the hour and minute hands have been set, the second hand must be pushed back into position I at the exact second.

**Setting the date (quick mode)**

1. Pull out the crown to position III (the watch stops).
2. Turn the crown until the correct date appears.
3. Push the crown back into position I.

*Please note:*
- During the date changing phases between approx. 6 PM and 12 PM, the date must be set at the date of the following day. An extreme acceleration in setting the date with quick mode can induce a false date indication. The synchronization is re-established by setting the date from 01.01.21 (crown in position II).

**Setting the date/time**

Example: Date / time on the watch:

- Present date / time: 1:25 PM (1 day past)
- Pull out the crown to position II (the watch continues to run).
- Turn the crown until yesterday’s date appears.
- Continue to turn the crown until the correct time 9:00 PM appears.
- Push the crown back into position I.

*Please note:*
- To set your watch to the exact second, please refer to the chapter entitled “setting the time.”
- Please observe the AM/PM clock rhythm.

**Chronograph: Basic function**

- **Start / Stop / Reset**

Example:
- Start: Press push-button A.
- Stop: Press push-button A once more and read the chronograph hands.
- Reset: Press push-button B. (The chronograph hands will be reset to their zero positions.)

**Zero positioning:**

Press push-button B. (The chronograph hands are returned to their zero positions)

**Chronograph: Accumulated timing**

Example: Start: (reset timing)

- Start: approx. 9 AM (time is shown)
- Step: approx. 10 AM (time is shown)
- Restart: (reset timing)

**Zero positioning:**

Press push-button B. (The chronograph hands are returned to their zero positions)

**Chronograph: Intermediate or interval timing**

Example: Short interval:

- Start (timing) approx. 10 AM
- Step (at regular intervals)
- Making up the measured time:
  - Chronograph hands are quickly advanced to the ongoing measured time
- Stop (final time is displayed)
- Restart: Chronograph hands are returned to their zero positions

**Please note:**
- Following the accumulation of the timing can be continued by pressing push-button A.

**Chronograph: Hands to zero position**

Example: One or several chronograph hands are not in their correct zero positions and have to be adjusted accordingly following a battery change.

1. Pull out the crown to position III (the chronograph hands are in their correct or nearest zero position).
2. Keep push-buttons A and B depressed simultaneously for at least 2 seconds (the second counter hand rotates by 360° — correct mode is activated).

**Adjusting the chronograph hands to zero position**

Example: Single step: 1 x short

- Adjusting the second counter hand
- Single step: 1 x short
- Continuous: long

- Adjusting the second counter hand: (position III)
- Single step: 1 x short
- Continuous: long

- Adjusting the minute counter hand and the hour counter hand (mechanical coupled)
- Single step: 1 x short
- Continuous: long

**Returning the crown to position I**

Termination of the chronograph hands adjustment (can be carried out at any time).
