Pos. I Position of rest (watch running)

Pos. II Quick-change correction of the date

The date display comprises a 2-disc system. For construction reasons, on the first day of a new month, the date must be set on 01 via the quick-change method passing through 31–39.

The date can also be changed during the day-changing phase between approx. 10 pm and midnight. The date of the following day has to be set, because no automatic date change takes place at midnight.

– Pull the crown out to position II (watch still running).

– Turn the crown clockwise until the required date appears.

– Push the crown back into position I.

Pos. III Setting the time

– Pull the crown out to position III (watch stopped).

– Turn the crown, until the current time is displayed (remember the 24-hour cycle).

– Push the crown back into position I.

You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.
