Crown A

Position of rest (watch running)

Quick-change correction for date

- Pull the crown out to position II (watch still running).
- Turn the crown clockwise until the current date appears.
- Push the crown back into position I.

Setting the time (both time zones together)

- Pull the crown out to position III (watch stopped).
- Turn the crown forward by turning the crown, until the current day of the week appears.
- Push the crown out to position II and set the current date using the quick change correction.
- Push the crown back into position I.

Crown B

Position of rest (watch running)

Quick-change correction for date

- Pull the crown out to position II (watch still running).
- Turn the crown clockwise until the required date appears.
- Push the crown back into position I.

Setting the time (both time zones together)

- Pull the crown out to position III (watch stopped).
- Turn the crown, until the current time is displayed (remember the 24-hour cycle).
- Push the crown back into position I.

You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.
