You have decided to buy a watch, which was assembled by a watchmaker using a Ronda movement. Please note that no watches are produced or distributed under the Ronda brand.

In case of repairs, guarantee claims and questions concerning the functioning of a watch, purchasers and consumers should contact their retailer or the watch manufacturer, for which the relevant information can be found in the sales or guarantee documentation provided with the watch.

### Movements Caliber User’s Manual English

**Ronda xtratech**

- 706.1
- 706.3
- 706.8

---

**Cal. 706.1**

**Pos. I** Position of rest (watch running)

**Pos. II** During the blocking period from 10.00 pm – 5.00 am, automatic changes are in progress. It is not allowed to activate the pushers A or B or C (quick-correction of date, day of the week, month) during the blocking period. Pressing the pushers during this period may cause malfunctions in the movement.

**Setting sequence for: moonphase display, day of the week, day and time** (e.g. after a battery change)

1. Pull crown out to position II (watch is stopped).
2. Set the moonphase display:
   - Turn the hands forward by turning the crown, until the current date appears.
   - Using the quick-change correction, set the date with pusher A, and the day of the week of the last full moon and the full moon dates appear.

   - Turn the hands forwards until the current date appears.

3. Set the day of the week and date:
   - Turn the crown until the time of 06.00 am appears (= beyond the blocked time period).
   - Pressing the pushers during this period may cause malfunctions in the movement.

4. Set the time:
   - Turn the crown until the current time is displayed (remember the 24-hour cycle).
   - Quick-change correction for the day of the week:
   - Press pusher B, until the current day of the week is displayed (remember the blocking period).
   - Quick-change correction for the month:
   - Press pusher C, until the current month is displayed (remember the blocking period).
   - Quick-change correction for date:
   - Press pusher A, until the current date is displayed (remember the 24-hour cycle).

5. Push crown back into position I.

---

**Cal. 706.3**

**Pos. I** Position of rest (watch running)

**Pos. II** During the blocking period from 10.00 pm – 5.00 am, automatic changes are in progress. It is not allowed to activate the pushers A or B or C (quick-correction of date, day of the week, month) during the blocking period. Pressing the pushers during this period may cause malfunctions in the movement.

**Quick-change correction for date:**

Press pusher A, until the current date is displayed (remember the blocking period).

**Quick-change correction for the day of the week:**

Press pusher B, until the current day of the week is displayed (remember the blocking period).

**Quick-change correction for the month: (Cal. 706.3)**

Press pusher C, until the current month is displayed (remember the blocking period).

**Applies to all calibers:**

Battery type: 371 / SR920SW

Precision: ±20 / -10 seconds per month
Cal. 706.B

Set the moonphase display:

1. Pull the crown out to position II (watch stopped).

Setting sequence for: moonphase display, date, day of the week (e.g. after battery change)

- Pusher A (quick-correction for the date) must not be pressed during the blocking period from 10.00 pm – 5.00 am.
- Pusher D (quick-correction for the calendar week) must not be pressed during the blocking period from Saturday 10.00 pm – Monday midnight.
- There is no quick-change correction available to change the day of the week, and so the day of the week must be changed as follows. Change the time display by turning the crown backwards and forwards (10.00 am / 10.00 pm / 01.00 am / 01.00 pm), until the day of the week of the last full moon is displayed.

2. Set the day of the week:
   - There is no quick-change correction available to change the day of the week, and so the day of the week must be changed as follows. Change the time display by turning the crown backwards and forwards (10.00 am / 10.00 pm / 01.00 am / 01.00 pm), until the day of the week of the last full moon is displayed.
   - Turn the crown until 06.00 am appears in the time display (= beyond the blocking time).
   - Set the date of the last full moon with pusher A.
   - Then with the crown move the hands forwards until the current date is displayed.

3. Set the time:
   - Turn the crown until 06.00 am appears in the time display (= beyond the blocking time).
   - Set the date of the last full moon with pusher A.
   - Then with the crown move the hands forwards until the current date is displayed.

4. Set the date:
   - Pusher D, until the current calendar week is displayed (remember the blocking period between Saturday 10.00 pm – Monday 12:00 pm).

5. Set the time:
   - Turn the crown, until the current time is displayed (NB remember the 24-hours cycle!).

6. Set the calendar week:
   - Using pusher D, set the current calendar week (blocking period Sunday – Monday).

7. Push the crown back into position I.
